Chief of Station, [REDACTED] 25X1X7

Release of Material to the [REDACTED]

Paragraph 1.

1. We wonder if it would be possible to release the following publications to the [REDACTED]

A. RR EM 62-7 - The Iron and Steel Industry of North Korea

B. RR ER 62-11 - Consumption of Electric Power in the USSR

2. We recognize that such requests are burdensome for you. However, the [REDACTED] has only a limited capability in the economic research field, and it has found your economic studies on the bloc of great value. The top leadership in the [REDACTED] has recently changed, and at this particular time we are especially anxious to develop the present cooperative relationship between our two organizations.

3. We expect that there will be times when it will not be practical for you to concur in our requests for release. In such cases, the release of one or two of the key tables or figures would be appreciated.
